

SAFETY ON WALKS

The club encourages safe bushwalking practices by asking that all individuals on any walk be aware of the need to look out for the welfare of others in the party, especially the less experienced members of the party. The leader will follow the leader guidelines set down by the club, but there is a mutual obligation on other walkers to raise any concerns they may have about the route, weather, tired walkers, etc. with the leader and fellow walkers. Don't suffer in silence.

Walking in wilderness or remote areas also has its hazards if an emergency occurs. Walk leaders going into wilderness or remote areas may ask the club for the use of a personal locator beacon (PLB). For details contact the Walks Officer. Such an emergency beacon, however, should only be used in life-threatening situations since their activation triggers a national and international rescue procedure and actions by the police and rescue services. Walkers should consider all other options for the safe return of the party before considering the activation of a PLB.
