## Register of Day Walks

### From 1981-2 to 2006-1

The following list is of day walks programmed by the FBI, that are not exploratory and not associated with camps. The walks are listed under the various grades used by the Club.

The first column gives the walk title and the total distance of the walk, the second column the total amount climbed (if available), the third column the measured duration of the walk from leaving the cars to returning to the cars (including stops and lunch), the fourth column the total distance of car travel to the walk and returning, the fifth column the name of the Central Mapping Authority 1:25 000 map (or other appropriate map) covering the walk and the sixth column gives the dates on which the walk was programmed during the above period.

The seventh column specifies the grade as follows:

**ve** - Very Easy, **e** - Easy, **m** - Medium, **h** – Hard.

The letter **v** after a date means a variation to the standard description for that date.

Originally compiled by Peter Wellman 1994, Milton Turner in 1995, Mel Marriott 2/7/98, Peter Wellman to 30/6/2006. (REGDWALKto06-1.doc)
